

VENDOR GUIDELINES

WHAT IS OUR MISSION?

The Huliau Green Events program is designed to see this event's waste as a resource, and to divert an average of **80%** of event waste from the landfill. By doing this you can help keep our land and oceans free of plastic, reduce your event's carbon footprint, and educate the public about the many alternatives to sending waste to the landfill. By working with us, you are also helping to support the Maui Huliau Foundation and their programs which build environmental literacy and leadership among Maui's youth.

WHY SHOULD WE AVOID PLASTIC?

Plastic takes hundreds to thousands of years to break down, and their chemical toxins last even longer.

Wildlife mistake smaller pieces of plastic for food, allowing plastic to enter the food chain.

Plastic contains harmful chemicals that leach out into our environment and our bodies.

Plastic is a product of petroleum. The creation of plastic products impacts the environment and releases greenhouse gases.

HOW YOU CAN HELP US GO GREEN

PRE-EVENT

1) Using compostable foodware (cups, plates, utensils etc) is mandatory at this event. Please choose all of your disposable foodware from our Huliau Approved list below to avoid purchasing "greenwashing" products.

We will help you find the most appropriate and cost effective foodware to use for this event.

2) Please avoid bringing unnecessary disposable items such as zip lock bags, excessive packaging and disposable table cloths. Use reusable options whenever possible and feel free to contact us for advice!

HULIAU GREEN EVENTS APPROVED PRODUCT LIST

*If your products are certified compostable and not on this list, you must contact **Kiera** to approve them prior to the event.

(808) 633-6067

*any brand that is not individually wrapped in plastic

Where to Buy?
Costco
Maui Chemical / TJ's
Island Grocery

Aardvark Paper Straws

Where to Buy?
Sustainable Island Products
Maui Chemical / TJ's
Island Grocery

BIO-PLASTICS (PLA)

These products are certified compostable, BUT only in an industrial composting facility which we do not have on Maui. They are made of plant material rather than petroleum, which is better, but we are not able to compost them on our local farms and they are sent to the landfill. Please find an alternative on the Huliau Approved List.

DURING THE EVENT

1) Please share this info with other members working your booth

2) You will be given a bucket for compost and a bin for trash. Here is what goes in each container

Compost bucket: foodwaste & paper or wood products

Trash bin: Plastic wrap, gloves, dirty aluminum foil, food wrappers, etc.

If you accumulate any recycling or cardboard, please break it down and bring it to the waste station nearest you.

2) You are welcome to use your own waste disposal containers, but please keep them hidden from the public. Please direct guests to the waste stations.

AFTER THE EVENT

1) We understand break down is chaotic and we are all ready to go home. However, please do not leave unsorted trash at your booth. You can either take it home with you or take it to the nearest waste station.

2) Please follow us on Facebook and Instagram @mauihuliau to share the event waste report and celebrate our collective waste diversion efforts!

**For questions or more information please contact Kiera
